

Problem Statement:

While some Carolina Card phone sleeves exist and are convenient, they are only somewhat safe and practical.

Details:

Carolina card phone sleeves are very convenient, as you don't need to carry around a wallet which you rarely need on campus. However, they have many fatal flaws. One of which is the lack of card security. Many phone sleeves don't have the top cover to keep the card from falling out when your phone is upside down; which is a common position for your phone to be in (putting it in your pocket, carrying it, etc.). This lack of security can cause your Carolina Card to get lost, and you then have to pay a hefty fee to get it replaced. Even if the phone sleeve has a top cover, it loses practicality. This is because you have to open the sleeve and grab your card to scan into the dining halls; which can be difficult if your hands are already full.
