

COMPUTER & ELECTRICAL ENGINEER

Benjamin W. Kaliope

PROFILE

University of South Carolina student from Greer, SC, pursuing a bachelor's degree in Computer Engineering with a minor in Electrical Engineering. I am in the Association for Computing Machinery club. In this club, we practice technical interview questions and compete in programming competitions. Before enrolling in university, I worked on a yearlong website development project for a startup in Greenville, documenting and recording the entire process.

FIELD EXPERIENCE

Software Engineering Intern

Nice Lion Technologies / November 2024-Present

- Programming and designing front and back software systems for an unreleased software product
- Incorporating several third-party APIs into software
- Writing documentation for the code, to make it easily readable for other engineers
- Collaborating with my internship manager to produce solutions that fall in line with company goals
- Designing user interfaces

Website Developer

Independent / June 2023 - Present

- Collaborated with a startup company, based in Greenville, SC, to design and develop a website for customer use.
- Project was supervised by my mentor, who owns a website/software development company (nicelion.com).
- Earned two online certificates: HTML & CSS and JavaScript.
- 35 Hours of documented research and over 25 hours of video-recorded product development (Portfolio available upon request).
- Website's code, infrastructure, and design were built from the ground up, using VSCode text editor.

-
- I am in the development process for a professional website showcasing my skills, projects, work experience, and information about me.
 - Originally the code was written in plain HTML and CSS, though I've decided to rewrite it in the highly optimized language: Svelte.

EDUCATION

Computer & Electrical Engineering

University of South Carolina / 2024-2028
